INDEPENDENT AUDITOR'S REPORT

Board of Trustees Fox Metro Water Reclamation District Oswego, Illinois

Opinions

We have audited the accompanying financial statements of the Fox Metro Water Reclamation District (the District), as of and for the years ended May 31, 2022 and 2021, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the Fox Metro Water Reclamation District, as of May 31, 2022 and 2021, and the respective changes in its financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the insurance coverage and other information but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Sikich LLP

Naperville, Illinois November 14, 2022

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Management's Discussion and Analysis

The management of Fox Metro Water Reclamation District (District) offer readers of our financial statements the following narrative overview and analysis of our financial activities for the years ended May 31, 2022 and 2021.

Financial Highlights

Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$240,700,069 and \$221,257,065, respectively, (net position) at the close of the 2022 and 2021 fiscal years. Of this amount, \$46,618,597 and \$33,261,558, respectively, is unrestricted and available to meet ongoing and future obligations of the District, including its share of capital projects.

Net position increased by \$19,443,004 and \$8,370,523, respectively. The unrestricted portion increased by \$13,357,039 and \$648,973, respectively, while the net investment in capital assets portion increased by \$6,295,395 and \$7,915,427, respectively.

Operating income for the 2022 and 2021 fiscal years were \$18,933,125 and \$13,783,829, respectively.

Operating income for the 2022 and 2021 fiscal years were increased (decreased) by net non-operating revenues (expenses) of \$209,879 and of \$(5,413,306), respectively.

The resulting changes in net position for fiscal years 2022 and 2021 were \$19,443,004 and \$8,370,523, respectively.

Basic Financial Statements

Our basic financial statements are prepared using proprietary fund (enterprise fund) accounting that uses the same basis of accounting as private-sector business enterprises. The District is reported under one enterprise fund. Under this method of accounting, an economic resources measurement focus and an accrual basis of accounting is used. Revenues are recorded when earned and expenses are recorded when incurred. The basic financial statements include a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows. These are followed by notes to the financial statements. In addition to the basic financial statements, this report also contains required supplementary information and certain supplemental schedules and information that are useful in understanding the overall operations of the District.

The statement of net position presents information on the assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of revenues, expenses, and changes in net position reports the operating revenues and expenses and non-operating revenue and expenses of the District for the fiscal year with the difference - the income or loss before contributions - being combined with any capital contributions to determine the net change in position for the fiscal year. That change combined with last year-end net position total reconciles to the net position total at the end of this fiscal year.

The statement of cash flows reports cash and cash equivalent activities for the fiscal year resulting from operating activities, capital and related financing activities, and investing activities. The net result of these activities added to the beginning of the year cash balance reconciles to the cash and cash equivalent balance at the end of the current fiscal year. Contrary to the other basic financial statements, this statement is prepared on a cash basis.

Financial Information

Net Position: The following schedule presents a summary of net position comparisons for the fiscal years ended May 31, 2022 and 2021 (amounts in thousands).

	N	May 31, 2022	May 31, 2021		ncrease ecrease)
Current assets Noncurrent assets	\$	68,434 310,898	\$ 58,170 305,792	\$	10,264 5,106
Total assets		379,332	363,962		15,370
Pension Items		2,768	3,454		(686)
Total deferred outflows of resources		2,768	3,454		(686)
Total assets and deferred outflows of resources		382,100	367,416		14,684
Current liabilities		11,284	 11,717		(433)
Long-term liabilities		118,628	127,664		(9,036)
Total liabilities		129,912	139,381		(9,469)
Pension Items		11,488	6,778		4,710
Total deferred inflows of resources		11,488	6,778		4,710
Total liabilities and deferred inflows of resources		141,400	146,159		(4,759)
Net position Net investment in capital		195 221	178 025		6 206
assets Restricted Unrestricted		185,221 8,861 46,618	178,925 9,070 33,262		6,296 (209) 13,356
Total net position	\$	240,700	\$ 221,257	\$	19,443

The District enjoys a very healthy quick ratio (cash and investments/current liabilities) of 5.2 and 4.2 respectively, providing the District with the liquid resources necessary to meet its foreseen and unforeseen operating requirements.

Restricted assets and liabilities payable from restricted assets relate to the District's requirement by the revenue bond covenants to set aside a certain amount of assets for future debt service and capital asset repair and replacement, offset by liabilities payable from said restricted assets.

The largest portion of the District's net position, \$185,220,648 and \$178,925,253, respectively, is net investment in capital assets (e.g., land, buildings, equipment, infrastructure, and improvements). Outstanding debt attributable to these capital assets, primarily Illinois Environmental Protection Agency loans, are deducted from the net book value of capital assets to calculate these figures.

Restricted net position represents outside legal restrictions on the remainder of the net position of the District. The restricted net position of \$8,860,824 and \$9,070,254 respectively, are restricted for use by the revenue bond covenants.

Most of the remaining unrestricted net position of \$46,618,597 and \$33,261,558, respectively, represent resources available to meet both the District's current and capital obligations. This category increased 40.16% and 1.99%, respectively from the prior year amount. The primary use of these net positions is to provide for the District's share of capital project costs, which are expected to total approximately \$213,141,500 over the next five (5) years. The District is tasked with having resources available for future environmental and safety regulations to protect public health, safety, and the environment.

Revenue, expenses and changes in net position. The following schedule presents a summary of revenues, expenses, and changes in net position for the fiscal years ended May 31, 2022 and 2021 (amounts in thousands).

	N	May 31, 2022		May 31, 2021		ncrease Decrease)

Change in net position	\$	19,443	\$	8,371	\$	11,072

Operating revenues represent exchange transactions with the constituents of the District for treatment of wastewater. The District provides these services to the communities of Aurora, North Aurora, Montgomery, Oswego, Sugar Grove, and portions of Batavia and Yorkville as well as unincorporated areas of DuPage, Kane, Kendall and Will counties. Primary operating revenues are wastewater treatment charges to the approximately 84,428 customer accounts in the communities and unincorporated areas served by the District. The District is responsible for the conveyance (from the lift station to the treatment plant) and treatment of wastewater in these areas with the communities being responsible for the collector lines from the point of usage to the lift station. The number of users increased by 429 accounts from 2020 to 2021, and has increased on average 0.52% over the last five years. The number of customer accounts is anticipated to grow by 3.5% in total over the next ten years due to the growth occurring in most areas served by the District, especially in the Oswego and Sugar Grove service areas. User fees are generally calculated based on potable water consumption. The current user rates per one thousand gallons were \$6.83 and \$6.53 in 2022 and 2021, respectively. The

District has the ability to set its own user fees based on operating, capital, and cash flow needs of the District.

This past year wastewater treatment charges increased \$2,320,692 or about 5.3% over the prior year. The increase in treatment charges is due to rate increases as well as increases in the number of users and the volume of flows treated. Other operating revenue sources increased \$1,093,364.

Operating expenses are those expenses directly resulting from providing services to our constituents. The District's operating expenses are grouped into three primary categories; operations, administration, and depreciation. Operations include salaries and employee benefits exclusive of administrative personnel salaries, utilities, supplies, maintenance, engineering fees, and other costs; administration includes administrative personnel salaries and employee benefits insurance, professional services, office supplies, and other costs; depreciation results from allocating the cost of the capital assets used to provide services over the assets respective useful lives. Operating expenses decreased by \$1,735,240 or 5.45% from 2021.

Overall, the District reported an operating income of \$18,933,125 and \$13,783,829 for fiscal 2022 and 2021, respectively. The operating income in 2022 is mainly attributed to wastewater treatment charges and connection fees. The operating income is attributed to management's efforts to build fund balance in order to support cash flows and future plant improvement and plant expansions as well as funding debt payments.

Non-operating revenues and expenses represent those revenues and expense that are 1) incidental to providing services, or 2) one-time revenues not correlated to user fees. Net non-operating revenues (expenses) for fiscal years 2022 and 2021 totaled \$209,879 and \$(5,413,306), respectively, and are comprised primarily of connection fees and development fees. The development fees are comprised of two components, 1) annexation fees and 2) infrastructure participation fees. The primary non-operating expenses are interest costs on the District's outstanding debt obligations, interest expenses, and fiscal charges.

Overall, net position for fiscal 2022 and 2021 increased by \$19,443,004 and \$8,370,523, respectively.

Net Position Budgetary Analysis. This schedule is used to reconcile capital expenditures budgeted and completed in 2022 as compared to the planned budget for 2023. Due to unforeseen circumstances including weather, contractor delays, and unanticipated engineering considerations, not all projects are completed during the planned fiscal year. This creates unanticipated surpluses or deficits. The surpluses from 2022 will be used to complete projects in 2022 and beyond. The goal is to present this phenomenon in a timely and transparent manner. For a more detailed breakout of budget versus actual, see Schedules of Revenues and Expenses – Budget and Actual in the Supplemental Schedules.

	2022 Budget	2022 Actual	Variance	2023 Budget	Budget Increase (Decrease)
Revenues (excluding IEPA loan proceeds)	\$ 48,090,750	\$ 52,109,287	\$ 4,018,537	\$ 54,314,863	\$ 6,224,113
Expenditures (excluding capital)	(30,351,245)	(30,271,473)	79,772	(32,653,767)	(2,302,522)
Capital expenditures	(19,698,500)	(11,081,923)	8,616,577	(27,001,562)	(7,303,062)
Total revenues over expenses	\$ (1,958,995)	\$ 10,755,891	\$ 12,714,886	\$ (5,340,466)	3,381,471

Capital Assets. Capital assets are defined by the District as assets with an initial, individual cost of more than \$20,000-\$100,000 (depending on asset class) and an estimated useful life in excess of one year. Such assets are stated at cost or at estimated historical cost for purchased or constructed capital assets and at fair value for contributed capital assets. The following table summarizes the capital asset activity of the District. Additional information regarding the capital asset activity can be found in Note 4.

	Beginning Balance June 1	Additions/ Transfers	Retirements/ Transfers	Ending Balance May 31
2022				
Total capital assets not being depreciated	\$ 30,223,731	\$ 9,588,049	\$ 21,154,961	\$ 18,656,819
Total capital assets being depreciated	434,321,347	20,708,806	2,477,651	452,552,502
Total accumulated depreciation	159,578,426	10,202,323	2,317,086	167,463,663

CAPITAL ASSETS, NET	\$ 304,966,652	\$ 20,094,532	\$ 21,315,526	\$ 303,745,658
2021				
Total capital assets not being depreciated	\$ 25,903,639	\$ 15,591,023	\$ 11,270,931	\$ 30,223,731
Total capital assets being depreciated	433,960,191	9,702,256	9,341,100	434,321,347
Total accumulated depreciation	155,197,961	10,222,094	5,841,629	159,578,426
Total capital assets being depreciated, net	278,762,230	(519,838)	3,499,471	274,742,921
CAPITAL ASSETS, NET	\$ 304,665,869	\$ 15,071,185	\$ 14,770,402	\$ 304,966,652

The capital assets are comprised primarily of the wastewater treatment facility located in unincorporated Oswego Township, Illinois along the Fox River and intercepting sewers and lift stations within the service area. The current wastewater treatment plant is over 90 years old and meets all applicable EPA requirements. The wastewater treatment plant has a design treatment capacity of 42 MGD, of which average daily flow totals 35 MGD and maximum daily treatment capacity is 151 MGD. The wet weather facility (Building T) provides the District with 54 MGD of treatment to accommodate the increased rain event flows from combined sewers in the City of Aurora. The ultimate buildout capacity of 169 MGD will be constructed in phases in order to meet the growing constituent base and new EPA standards. The District owns approximately 240 miles of collection system service lines and 11 lift stations.

Long-term debt. The District has the ability to issue long-term debt to finance the construction, acquisition and replacement of capital assets used in the District's operations as well as to provide short term cash flow financing for operations, if necessary. The District's debt is comprised of eight IEPA loans. The District has an AA bond rating from (Moody's/Standard and Poor's). The IEPA loans are low interest loans funded through the Illinois IEPA revolving loan fund. Additional information regarding the long-term debt of the District can be found in Note 6.

Other Financial Information

The District has the ability under Illinois Compiled Statues (ILCS) to adopt a property tax levy for certain costs as well as for debt service, with approval from the voters, as the District is considered a tax capped entity. The District has not levied for property taxes in over thirty years, instead relying on user fees and non-operating revenues to cover the costs of providing services to the constituents.

The full-time employees and certain part time employees of the District are covered by the Illinois Municipal Retirement Fund, an agent multiple employer pension plan. The funded status of the plan as of December 31, 2021 and 2022 (latest information available) was 113.63% and 101.60%, respectively.

Economic Factors and Future Rates

Fox Metro has developed a comprehensive long-term capital improvement plan and several other planning documents that have been approved by Fox Metro's Board of Trustees and the Illinois Environmental Protection Agency. The decision-making for these projects is predicated upon the age of the asset, its overall condition and an assessment of the year-to-year maintenance costs versus the cost of rehabilitating or replacing the asset. Additionally, the performance of the asset is evaluated in terms of meeting Fox Metro's level of service goals when considering rehabilitation, improvement or replacement. All capital improvements, their funding, and implementation schedule are based upon needs of satellite partners and projected population growth as well as the age and condition of assets.

While not all inclusive, the featured projects highlight some of the major capital activities, in excess of \$150 million, planned over the next several years. Clarifier vault improvements, Main Pump Station Bar Screen Improvements, Digester Control Improvements, purchase of solar farm #2, Building K valve replacements and repairs, Building N rehabilitation and centrifuge replacement, new North Aurora and 111th St. Pump Stations, and Basin 43 Improvements. Numerous smaller operational, maintenance, and repair projects comprise a large portion of the upcoming projects. Sewer lining projects throughout the service area, approximately 5,000 linear feet each year, are lined to reduce infiltration and inflow and to provide structural stability within the existing pipe. Priority sewer lining and repair projects are scheduled for the original 69" interceptor serving the combined sewer area in downtown Aurora and the Boulder Hill area since these pipes are in the poorest condition due to age and deterioration.

For 2023 the District has been approved for American Rescue Plan Act funds through DuPage County. These funds must be used for sanitary sewer improvements within unincorporated areas of DuPage County. The District is currently determining availability of funds through Kane, Kendall, and Will Counties.

Requests for Information. The financial report is intended to provide an overview of the finances of the Fox Metro Water Reclamation District for those with an interest in this organization. Questions concerning any information contained in this report may be directed to Linnea Scherer, Controller, 682 Route 31, Oswego, Illinois 60543.

FOX METRO WATER RECLAMATION DISTRICT OSWEGO, ILLINOIS

NOTES TO FINANCIAL STATEMENTS

May 31, 2022 and 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fox Metro Water Reclamation District (the District) is an Illinois unit of local government organized in 1925 under the Illinois Sanitary District Act of 1917. The Board of Trustees are elected at the general election in the associated election district in which they live.

The financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

a. Reporting Entity

The District is considered to be a primary government since it is legally separate and fiscally independent. These financial statements include all functions, programs, and activities under the control of the Board of Trustees of the District.

b. Fund Accounting

Governmental resources are allocated to and accounted for in individual funds based on the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into a single fund.

Proprietary Funds

Enterprise Funds

Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the District is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the District has decided that periodic determination of revenues earned, expenses incurred, and net income or loss is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statements of net position. Proprietary fund operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in total net position. Operating revenues and expenses are directly attributable to the operation of the proprietary funds. Non-operating revenue/expenses are incidental to the operations of these funds.

The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

d. Cash and Cash Equivalents

For purposes of the statements of cash flows, the District considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

e. Investments

Investments with a maturity date of less than one year from the date of purchase and non-negotiable certificates of deposit are recorded at cost or amortized cost. Investments with a maturity date of more than one year from the date of purchase are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The District held no investments subject to fair value measurement at May 31, 2022 or 2021.

f. Accounts Receivable and Unbilled User Fees

The District recognizes wastewater treatment (user) charges in the period in which they are provided. The District bills these services on a bimonthly basis. An allowance for uncollectible accounts is provided based upon historical losses.

g. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid expenses.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Restricted Assets

Proceeds of Illinois EPA Loans, as well as certain resources set aside for their repayment, are classified as restricted assets on the statements of net position because their use is limited by applicable loan covenants.

i. Capital Assets

Capital assets are defined by the District as assets with an initial, individual cost of more than \$20,000 - \$100,000 and an estimated useful life in excess of one year. Such assets are stated at cost or at estimated historical cost. The capital asset policy was changed as of May 31, 2021, to increase the individual cost threshold of capital assets.

Capital assets contributed to the District are recorded at acquisition value on the date contributed. Depreciation is computed under the straight-line method over the estimated useful lives of the assets. Depreciation is not recognized on construction in progress.

The following is a summary of useful lives used for depreciation of the various classes of capital assets:

Class	Useful Life in Years
Plant - buildings and improvements	5-50
Sanitary sewers and improvements	50
Plant machinery and equipment	3-50
Office furniture and equipment	5-15
Capitalized engineering and other costs	3-50
Vehicles	3-5

j. Compensated Absences

Compensated absences (sick days and vacation) are recorded in the period in which they are earned by employees whether or not actually paid.

k. Net Position

Restricted net position represents amounts required to be segregated by Illinois EPA Loan covenants ordinance provisions. Net investment in capital assets represents the book value of capital assets less outstanding long-term debt principal issued to construct or acquire capital assets. None of the District's net position is restricted as a result of enabling legislation adopted by the District. If restricted or unrestricted funds are available for spending, the restricted funds are spent first.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Annexation and Related Fees

In accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, effective for fiscal years beginning after June 15, 2000, the District began recognizing capital contributions from non-exchange transactions as non-operating revenues beginning with fiscal year 2002. The District recognizes fees realized under annexation arrangements as revenue in the period received.

m. Deferred Outflows/Inflows of Resources

In addition to assets, the statements of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

n. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, deferred inflows and disclosure of contingent assets, and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

o. Adoption of Accounting Standards

The District has elected to implement GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, which was issued to provide temporary relief to governments and other stakeholders due to the COVID-19 pandemic. This provides for the postponement of the implementation of GASB Statement No. 87, *Leases* until May 31, 2023.

2. DEPOSITS AND INVESTMENTS

The District's investment policy authorizes the District to invest in all investments allowed by Illinois Compiled Statutes (ILCS). These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of

2. DEPOSITS AND INVESTMENTS (Continued)

securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, The Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value), and the Illinois Metropolitan Investment Fund (IMET), a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold. The District's investment policy does limit its deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity, and rate of return.

The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The District held no investments subject to fair value measurement at May 31, 2022 or 2021.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance. The District's investment policy does not address how collateral is to be held. At May 31, 2022 and 2021, deposits with financial institutions were collateralized by a letter of credit issued by the Federal Home Loan Bank.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District limits its exposure to interest rate risk by remaining sufficiently liquid to meet all operating requirements that may be reasonably anticipated and to provide sufficient liquidity to pay obligations as they come due. The investment policy does not limit the maximum maturity length of investments. The District held no investments other than non-negotiable certificates of deposit at May 31, 2021 and May 31, 2022.

2. DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. The District's investment policy does not address custodial credit risk for investments.

Concentration of Credit Risk

Concentration of credit risk is the risk that the District has a high percentage of its investments invested in one type of investment. The District places no limit on the amount that may be invested in any one issuer, stating only that the District diversify its investments to avoid unreasonable risks. The District held no investments other than non-negotiable certificates of deposit at May 31, 2021 and May 31, 2022.

3. ACCOUNTS RECEIVABLE

Days	2022	2021
0-21	\$ 1,681,838	\$ 973,983
21-42	515,722	376,979
43-90	792,629	937,254
90 and over	198,578	178,119
Total accounts receivable	3,188,767	2,466,335
Allowance for uncollectible accounts	(107,945)	(162,141)
NET ACCOUNTS RECEIVABLE	\$ 3,080,822	\$ 2,304,194

The aging of the accounts receivable balance at May 31, 2022 and 2021 is as follows:

Included in the 90 and over balance are accounts against which liens have been filed by the District (\$73,864 and \$43,067 in 2022 and 2021, respectively), contracts for pretreatment and industrial fees which the District charges (\$104,935 and \$113,193 in 2022 and 2021, respectively), and related lien-filing fees and interest which the District charges (\$19,778 and \$21,859 in 2022 and 2021, respectively). The allowance for uncollectible accounts that is provided is management's estimation based upon the historical experience and other facts available at the time.

Unbilled user fee revenue has been recorded as of May 31, 2022 and 2021 in the amount of \$6,503,169 and \$6,734,987, respectively, to reflect wastewater treatment services performed but not billed as of those dates.

4. CAPITAL ASSETS

The District's property, plant, and equipment as of May 31, 2022 and 2021 are as follows:

	Balances June 1	Additions	Retirements	Transfers	Balances May 31

CAPITAL ASSETS, NET	\$ 304,665,869	\$ 14,210,664	\$ 13,909,881	\$-	\$ 304,966,652

During the year ended May 31, 2021, various assets were reclassified. These reclassifications are included within the transfer column. Additionally, the District updated their capital asset policy as of May 31, 2021, and several assets were retired that did not meet the updated individual cost threshold.

5. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. General liability and property risks are covered through a public entity risk pool with transfer of risk. The District pays annual premiums to the risk pool. The District is not aware of any additional premiums owed to the risk pool as of May 31, 2022 and 2021 and for the prior two claim years.

Workers' Compensation

The District is partially self-insured for workers' compensation coverage. At May 31, 2022 and 2021, the insurance limits of coverage in effect were aggregate Excess Workers' Compensation Insurance: \$550,000 self-insured retention per occurrence. \$500,000 employers' liability maximum limit of indemnity per occurrence.

The District employs an independent claims service company to review and recommend payment of claims under workers' compensation. The District had \$122,982 of workers' compensation open claims and estimated claims incurred but not reported as of May 31, 2022 and \$176,957 of workers' compensation open claims and estimated claims incurred but not reported as of May 31, 2021. These claims are based upon salary costs of individuals and incurred medical and legal fees and individual claims incurred but not reported as of May 31, 2022.

Health Insurance

The District has entered into an agreement with a claims paying agent to which the District pays for insurance premiums and fees. Claims are processed by this agency but are paid directly from a District funded Health Insurance bank account. The agent pays insurance premiums for specific and aggregate policies, pays claims, and collects its fee for such services. The self-insured program ended as of December 31, 2021. As of May 31, 2022, the District has purchased commercial health insurance.

Under the self-insurance program, the District was responsible for the first \$80,000 of covered charges per individual. Maximum lifetime benefits per individual are unlimited. On an aggregate basis, for the policy year, the District had a self-insurance retention based upon the average monthly number of employees and dependents. At May 31, 2021, this self-insurance retention was approximately \$2,210,295. Covered charges in excess of the aggregate self-insurance retention were provided by insurance to the extent of \$1,000,000. The self-insured program ended as of December 31, 2021.

5. **RISK MANAGEMENT (Continued)**

Health Insurance (Continued)

The District's maximum exposure for the years ended May 31, 2022, 2021, and 2020 was calculated as follows:

	2022	2021	2020
Fixed costs Health and life coverage (specific, life, HFN fee, aggregate insurance, and administration cost) Variable costs (fund to pay claims)	\$	- \$ 114,444 - 2,008,632	\$ 163,181 1,991,938
TOTAL	\$	- \$ 2,123,076	\$ 2,155,119

As of May 31, 2022 and 2021, claims outstanding and estimated as incurred but not reported were \$0 and \$466,460, respectively. The self-insured program ended as of December 31, 2021.

Claims Liabilities

The District was self-insured for all risks relative to health (through December 31, 2021) and workers' compensation insurance. The District also purchased excess coverage policies to limit the District's exposure to these risks. An amount for incurred but not reported (IBNR) claims is recorded in the financial statements based upon actual experience.

The following is a reconciliation of changes in the liability for claims in the years ended May 31, 2022, 2021, and 2020:

	2022	2021	2020
CLAIMS LIABILITIES - JUNE 1 Claims incurred and ceded Claims paid	\$ 643,417 1,602,631 (2,123,066)	\$ 286,663 2,357,382 (2,000,628)	\$ 183,841 2,110,090 (2,007,268)
CLAIMS LIABILITIES - MAY 31	\$ 122,982	\$ 643,417	\$ 286,663

6. CHANGES IN LONG-TERM DEBT

The following is a summary of changes in long-term debt of the District for the years ended May 31, 2022 and 2021:

*There was a net pension asset for IMRF as of May 31, 2021 and May 31, 2022.

Long-term debt at May 31, 2022 and 2021 comprises of the following individual note obligations.

a. Water Pollution Control Revolving Fund Notes Payable

The District entered into a Water Pollution Control Revolving Fund loan agreement with the Illinois EPA in fiscal year 2000 (L17-1529) for the upgrade and expansion of the District Wastewater Treatment System. The note bears interest at 2.535% and matures on August 28, 2021. Simple interest is accrued on each loan disbursement on the day after the date of issuance. The loan agreement constitutes a sewerage revenue bond under the Sanitary District Act of 1917, as amended, the Sanitary District Revenue Bond Act, as amended, and the Local Government Debt Reform Act, as amended. The loan agreement was issued on a junior lien basis to the Sewerage Refunding Revenue Bond Series 1993 and 2002, and bonds which may be issued on a parity with the Series 1993 and 2002 Bonds. The loan agreement specifies special junior lien accounts into which revenues received from the use and operation of the sewerage Refunding Revenue Bond Series 2002 were retired on June 1, 2008. The loan was fully repaid as of May 31, 2022.

The District entered into a Water Pollution Control Revolving Fund loan agreement with the Illinois EPA in fiscal year 2008 (L17-2638) for the construction of a Temperature Phase Anaerobic Digestion System. The note bears interest at 2.50% and matures on August 15, 2029, with interest and principal payments due each

a. Water Pollution Control Revolving Fund Notes Payable (Continued)

February 15 and August 15 during the repayment period. Simple interest is accrued on each loan disbursement on the day after the date of issuance with construction period interest compounding into the principal of the loan. The loan agreement constitutes a sewerage revenue bond under the Sanitary District Act of 1917, as amended, the Sanitary District Revenue Bond Act, as amended, and the Local Government Debt Reform Act, as amended.

The District entered into a Water Pollution Control Revolving Fund loan agreement with the Illinois EPA in fiscal year 2009 (L17-2885) for the construction of a Excess Flow Pump Station and Disinfection Improvements. The note bears interest at 2.50% and matures on September 3, 2030, with interest and principal payments due each March 3 and September 3 during the repayment period. Simple interest is accrued on each loan disbursement on the day after the date of issuance with construction period interest compounding into the principal of the loan. The loan agreement constitutes a sewerage revenue bond under the Sanitary District Act of 1917, as amended, the Sanitary District Revenue Bond Act, as amended, and the Local Government Debt Reform Act, as amended.

The District entered into a Water Pollution Control Revolving Fund loan agreement with the Illinois EPA in fiscal year 2011 (L17-2887) for the construction of a Wet Weather Excess Flow Pump Station. The note bears interest at 1.25% and matures on April 7, 2032, with interest and principal payments due each April 7 and October 7 during the repayment period. Simple interest is accrued on each loan disbursement on the day after the date of issuance with construction period interest compounding into the principal of the loan. The loan agreement constitutes a sewerage revenue bond under the Sanitary District Act of 1917, as amended, the Sanitary District Revenue Bond Act, as amended, and the Local Government Debt Reform Act, as amended.

The District entered into a Water Pollution Control Revolving Fund loan agreement with the Illinois EPA in fiscal year 2012 (L17-3407) for the construction of the Cedar Glen subdivision sanitary sewer improvements. The note bears interest at 1.25% and matures on May 22, 2032, with interest and principal payments due each May 22 and November 22 during the repayment period. Simple interest is accrued on each loan disbursement on the day after the date of issuance with construction period interest compounding into the principal of the loan. The loan agreement constitutes a sewerage revenue bond under the Sanitary District Act of 1917, as amended, the Sanitary District Revenue Bond Act, as amended, and the Local Government Debt Reform Act, as amended.

a. Water Pollution Control Revolving Fund Notes Payable (Continued)

The District entered into a Water Pollution Control Revolving Fund loan agreement with the Illinois EPA in fiscal year 2014 (L17-3345) for the construction of the Montgomery/Sugar Grove interceptor extension. The note bears interest at 1.93% and matures on September 30, 2033, with interest and principal payments due each March 30 and September 30 during the repayment period. Simple interest is accrued on each loan disbursement on the day after the date of issuance with construction period interest compounding into the principal of the loan. The loan agreement constitutes a sewerage revenue bond under the Sanitary District Act of 1917, as amended, the Sanitary District Revenue Bond Act, as amended, and the Local Government Debt Reform Act, as amended.

The District entered into a Water Pollution Control Revolving Fund loan agreement with the Illinois EPA in fiscal year 2016 (L17-4854) for the construction of the South Wastewater Treatment Plant and an interceptor crossing the Waubonsee River. The note bears interest at 1.86% and matures on February 4, 2039, with interest and principal payments due each August 4 and February 4 during the repayment period. Simple interest is accrued on each loan disbursement on the day after the date of issuance with construction period interest compounding into the principal of the loan. The loan agreement constitutes a sewerage revenue bond under the Sanitary District Act of 1917, as amended, the Sanitary District Revenue Bond Act, as amended, and the Local Government Debt Reform Act, as amended.

The District entered into a Water Pollution Control Revolving Fund loan agreement with the Illinois EPA in fiscal year 2018 (L17-5391) for the construction of the North Facility Improvements (Phase II Waubonsee). The note bears interest at 1.56% and matures on August 26, 2039, with interest and principal payments due each February 26 and August 26 during the repayment period. Simple interest is accrued on each loan disbursement on the day after the date of issuance with construction period interest compounding into the principal of the loan. The loan agreement constitutes a sewerage revenue bond under the Sanitary District Act of 1917, as amended, the Sanitary District Revenue Bond Act, as amended, and the Local Government Debt Reform Act, as amended.

The loans are payable solely from and secured by a pledge of the net revenues (as defined in the loan agreements) of the sewerage system. The District also covenants that it will at all times establish and maintain reasonable fees, rates, and charges for the services of the sewerage system so that the revenues derived there from will be sufficient to provide funds to pay the principal and interest requirements of the loans.

a. Water Pollution Control Revolving Fund Notes Payable (Continued)

The Reserve Account shall be equal to the annual principal and interest payment funded within two years after the loan award. At May 31, 2022 and 2021, the balance of the account was \$8,860,824 and \$9,070,254, respectively.

b. Compensated Absences

The following is a summary of accrued compensated absences payable of the District for the years ended May 31, 2021 and 2020:

7. INTERGOVERNMENTAL AGREEMENTS

City of Aurora

On April 19, 2006, the City of Aurora (the City) entered into an agreement with the District to jointly construct a new sanitary sewer system for the City's downtown area. The agreement specifies that the City will finance all construction costs of the system. The District will repay the City 50% of the costs on a 30-year schedule in line with the debt service schedule for the City's Water and Sewer Revenue Bonds, Series 2006. Principal payments are due to the City on June 1 of each year beginning June 1, 2007, and interest payments are due semiannually on June 1 and December 1 of each year beginning December 1, 2006. During fiscal year 2016, the City refunded the underlying debt leading to a revised future payment schedule.

7. INTERGOVERNMENTAL AGREEMENTS (Continued)

City of Aurora (Continued)

The constructed system subject to 50% repayment shall be titled in the name of the District, which will own 100%. The District agreed to be fully responsible for operation and maintenance of the system. In addition, the principal amount of the liability to be paid to the City is recorded in the statement of net position and has been accrued as a proportion of construction costs as incurred.

The liability is to be paid to the City each year as follows:

Sanitary Sewer System		System	
I	Principal		Interest
\$	239,870	\$	171,811
	248,015		164,615
	256,300		157,174

Waubonsee Community College

On June 15, 2005, the District entered into an agreement with Waubonsee Community College (the College) for the construction of a new sanitary sewer line. The agreement requires the District to remit to the College the Infrastructure Participation Fees associated with the new plant, with potential payments totaling \$3,521,000. The total payments to date as of May 31, 2022 and 2021 were \$686,006.

8. COMMITMENTS

The District is currently involved with certain sewer system development and maintenance projects. Uncompleted contractual amounts on these projects, relating to the District and exclusive of amounts being incurred by developers and other governmental entities, totaled approximately \$15,983,658 and \$3,927,192 as of May 31, 2022 and 2021, respectively.

9. DEFINED BENEFIT PENSION PLAN

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and supplementary information. That report may be obtained online at www.imrf.org.

Illinois Municipal Retirement Fund

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required. Benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2021, IMRF membership consisted of:

Inactive employees or their beneficiaries currently receiving benefits	108
Inactive employees entitled to but not yet receiving benefits	32
Active employees	95
TOTAL	235
At December 31, 2020, IMRF membership consisted of:	
Inactive employees or their beneficiaries currently receiving benefits Inactive employees entitled to but not yet receiving	104
benefits	30
Active employees	97
TOTAL	231

Illinois Municipal Retirement Fund (Continued)

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

As set by statute, the District's regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires the District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual required contribution percentage for the fiscal years 2021 and 2022 was 11.51%, and 10.68%, respectively. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2021 and 2020 and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2020	December 31, 2021
Actuarial cost method	Entry-age normal	Entry-age normal
Assumptions Inflation	2.25%	2.25%
Salary increases	2.85% to 13.75%	2.85% to 13.75%
Interest rate	7.25%	7.25%
Asset valuation method	Fair value	Fair value

2020 and 2021 - For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2021 and 2020 was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended May 31, 2022, the District recognized pension expense (income) of \$(1,569,630). At May 31, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	-	Deferred Outflows of Resources]	Deferred Inflows of Resources
Difference between expected and actual experience Changes in assumption District contributions subsequent to the measurement date Net difference between projected and actual earnings on pension plan investments	\$	836,144 357,631 297,210	\$	665,161 400,538 - 7,017,248
TOTAL	\$	1,490,985	\$	8,082,947

\$297,210 reported as deferred outflows of resources resulting from district contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the reporting year ending May 31, 2023.

The remaining amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Year Ending May 31,	
2023 2024 2025 2026 2027	\$ (1,287,222) (2,578,327) (1,829,015) (1,183,834) (10,774)
TOTAL	\$ (6,889,172)

10. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

In addition to providing the pension benefits described, the District provides other postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions, and employer contributions are governed by the District and can be amended by the District through its personnel manual, except for the implicit subsidy which is governed by the State Legislature and ILCS. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report.

Benefits Provided

The District provides postemployment health care and life insurance benefits to its retirees. Retirees must be 55 years of age with a minimum of twenty (20) years of service Fox Metro Water Reclamation District; or 50 years of age with a minimum thirty (30) years of service. Employees that retire after reaching age 55 or at age 50 qualifying under the above criteria, but before age 62 will have 3% of his/her monthly insurance premium paid by the District for each year of service at Fox Metro Water Reclamation District.

All health care benefits are provided through the District's self-insured employee health plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous, and substance abuse care; vision care; dental care; and prescriptions. The benefits are provided until age 65 or whenever Medicare coverage becomes available.

a. Membership

At May 31, 2022, membership consisted of:

Retirees and beneficiaries currently receiving benefits	15
Terminated employees entitled	15
to benefits but not yet receiving them	-
Active employees	95
Active employees	
TOTAL	110
Participating employers	1

Benefits Provided (Continued)

b. Total OPEB Liability

The District's total OPEB liability of \$6,406,042 measured as of May 31, 2022 was determined by actuarial valuations as of June 1, 2022. The District's total OPEB liability of \$8,095,425 measured as of May 31, 2021 was determined by actuarial valuations as of June 1, 2020.

c. Actuarial Assumptions and Other Inputs

The total OPEB liability at May 31, 2022, as determined by actuarial valuations as of June 1, 2022, were determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Actuarial valuation date	June 1, 2022
Actuarial cost method	Entry-age normal
Actuarial value of assets	Not applicable
Inflation	3.00%
Salary increases	4.00 %
Discount rate, May 31, 2022	3.70%
Healthcare cost trend rates	4.50% to 6.50% Initial and Ultimate

The discount rate was based on the index rate for 20-year tax exempt general obligation municipal bonds rated AA or better at May 31, 2022 and 2021.

Mortality rates were based on PubG.H 2010(B) Employee Mortality Table for both males and females with 2-dimensional, fully generational improvements using the MP-2020 Mortality Improvement Scale.

The actuarial assumptions used in the June 1, 2022 valuation are based on 50% participation assumed for Trustees and 100% for all other future retirees, with 80% electing spouse coverage for Trustees and 70% for non-Trustee employees.

Benefits Provided (Continued)

c. Actuarial Assumptions and Other Inputs (Continued)

The total OPEB liability at May 31, 2021, as determined by actuarial valuations as of June 1, 2020, were determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liability was rolled forward by the actuary using updating procedures to May 31, 2021, including updating the discount rate at May 31, 2021, as noted below.

Actuarial valuation date	June 1, 2020
Actuarial cost method	Entry-age normal
Actuarial value of assets	Not applicable
Inflation	3.00%
Salary increases	4.00 %
Discount rate, May 31, 2021	1.59%
Healthcare cost trend rates	4.50% to 5.00% Initial and Ultimate

Mortality rates were based on RP-2014 Employee Mortality Table for both males and females with two-dimensional, fully generational improvements using the MP-2017 Mortality Improvement Scale.

The actuarial assumptions used in the June 1, 2020 valuation are based on 10% participation assumed for Trustees and 100% for all other future retirees, with 80% electing spouse coverage for Trustees and 70% for non-Trustee employees.

Benefits Provided (Continued)

Notes to Required Supplementary Information

The District made an additional contribution of \$1,000,000 during the fiscal year ending May 31, 2017.

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed, and the amortization period was 22 years (ten-year rolling period for nontaxing bodies); the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.25% annually, projected salary increases assumption of 3.35% to 14.25% compounded annually, wage growth of 3.25%, and price inflation of 2.50%.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

Total OPEB liability - beginning	 8,530,205	6,705,982	7,102,962	7,436,773	8,095,425
TOTAL OPEB LIABILITY - ENDING	\$ 6,705,982	\$ 7,102,962	\$ 7,436,773	\$ 8,095,425	\$ 6,406,042
Covered-employee payroll	\$ 6,365,770	\$ 6,365,770	\$ 6,615,660	\$ 6,615,660	\$ 7,310,821
Employer's total OPEB liability as a percentage of covered-employee payroll	105.34%	111.58%	112.41%	122.37%	87.62%

For 2018, the following changes in assumptions were made: starting per capita costs, health care trend rates, and decrements were changed to those in the most recent IMRF pension plan valuation report. In addition, the election assumption for Trustees was changed to 10% and eligibility requirements for Trustees and dental benefits for non-Trustee retirees were changed to the current policy.

For the 2019, the following changes in assumptions were made: the discount rate was changed from 3.27% to 3.05%.

For the 2020, the following changes in assumptions were made: the discount rate was changed from 3.05% to 2.63% and updated mortality rates.

For the 2021, the following changes in assumptions were made: the discount rate was changed from 2.63% to 1.59% and updated mortality rates.

For the 2022, the following changes in assumptions were made: the discount rate was changed from 1.59% to 3.70% and updated mortality rates.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

SUPPLEMENTAL SCHEDULES

SCHEDULES OF CHANGES IN NET POSITION

For the Years Ended May 31, 2022 and 2021
